

## Connecting to IIT-565 Wireless Network iPad Version

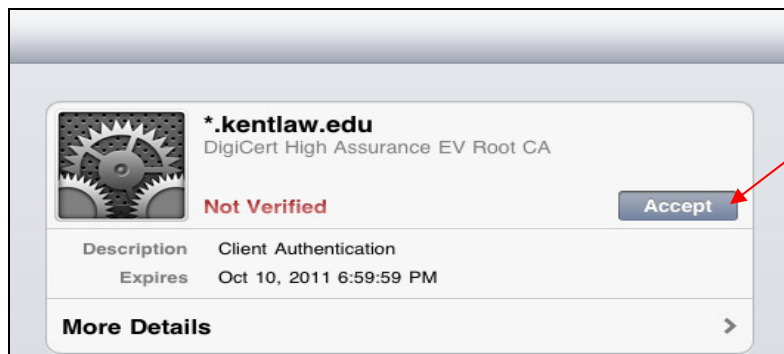

1. Go to Settings, Wi-Fi
2. Click on the IIT-565 network

3. Enter **your complete Chicago Kent or IIT email address** and the corresponding password

4. Click Join
5. Accept the \*.kentlaw.edu certificate

6. You should now be connected to the IIT-565 network

If you are still not connected after following these steps please try the manual connection below to access the IIT-565 network

### Manual Connection

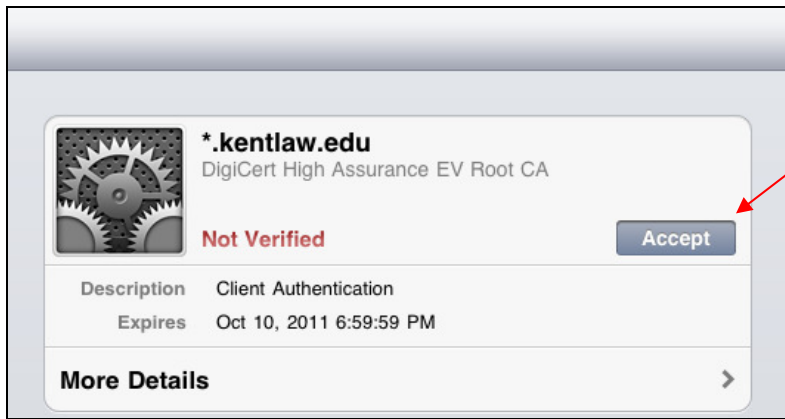

1. Go to Settings, Wi-Fi
2. Choose Other...

3. Enter the following information
  - a. Name: IIT-565
  - b. Security: WPA2 Enterprise
  - c. Username: your complete Chicago Kent or IIT email address
  - d. Password: your Chicago Kent or IIT password

A screenshot of the 'Enter network information' dialog box in an iPhone. The title is 'Other Network' with a 'Cancel' button in the top right. There are four input fields: 'Name' with the text 'IIT-565', 'Security' with a dropdown menu showing 'WPA2 Enterprise' and a right-pointing arrow, 'Username' with the placeholder text 'Enter your complete email address', and 'Password' with a series of ten blue dots to mask the input.

4. Choose Join
5. Accept the \*.kentlaw.edu certificate.

6. You should now be connected to the IIT-565 network
