**Academic Skills Program**
Promoting students' engagement and meaningful connection to law school
ASP helps students achieve academic success in their course work, examinations, and academic endeavors through a variety of programs, initiatives, and resources.

**About ASP**

ASP helps students cultivate academic skills needed in law school and beyond.

**Why Participate?**

**Our Goal**

Our goal is to ensure that all of our students maximize their academic potential as they encounter the rigors of law school. In collaboration with doctrinal faculty, the Offices of Academic Affairs and Student Services, and the Legal Research and Writing Program, ASP seeks to empower students to become independent, self-regulating learners, capable of increasing their learning effectiveness in law school and in practice.

**Workshops**

In the fall, we provide workshops that focus on the basic skills needed for law school success. Topics include fundamentals in learning, class preparation, outlines, and exams. 1Ls are strongly encouraged to attend. Throughout the school year, we hold additional workshops for all students to reinforce important skills needed in law school.

**Teaching Assistants**

We provide TAs for all of your first-year doctrinal courses and selected upper-level courses. TAs are selected from among Chicago-Kent’s top upper-level students based on their overall performance in law school and in particular courses. TAs hold weekly office hours, so you can obtain personalized one-on-one tutoring and guidance. TAs also provide review sessions open to all students in the class.

**Small Group Sessions**

We provide additional assistance to students who may find law school especially challenging through small group sessions—structured meetings for each doctrinal class led by TAs.
